### Comment

Dear Sir/Madam,

Herewith we would like to share our view on the Department of Treasury's consultation on the development and potential issuance of treasury floating rate notes indexed to SOFR (TREAS-DO-2020-0007). We have decided not to respond to the individual questions, however we do recognize that the decisions made will potentially develop into market standards. Therefore we would like to highlight that we are closely monitoring industry/market developments and prefer to follow these. As for amongst others implementation efforts, we have a preference for one single method and not multiple standards.
